

## Anti-Saloon League PRESCRIBES MAINE WHISKEY For Vermont

In last week's advertisement the Anti-Saloon League set forth a number of methods of getting liquor in case the Perry Act became a law. It said:

"It will be legal to sell medicines compounded with alcohol," etc.

A medicine compounded with alcohol can be used as a beverage. Do the prohibitionists mean to break the law by drinking alcohol, bitters and rock sugar?

"It will be legal to sell alcohol, compounded with harmless ingredients which take it out of the beverage class, for bathing purposes."

Prune juice is a harmless ingredient. Compounded with a few other "harmless" ingredients, this is the basis of Maine drug-store whiskey.

Does the Anti-Saloon League propose to break the law by drinking prune juice, red pepper and alcohol?

"The coming state-wide prohibitory law has nothing to do with anyone's legitimate possession and personal use of alcohol and other intoxicating liquors."

This is true. It shows the third leak in the Perry bill. The prohibitionists claim the law is "airtight, copper-bottomed and steel-hooped," but it is plain they do not expect it to be enforced, that it means Maine prohibition for local option Vermont.

## CHALLENGE

If the Perry bill passes, will the Anti-Saloon League join with the Local Option League in advocating a bill to make the possession of liquors a crime, as it is in Idaho?

Unless you want the Maine drug-store type of prohibition, mark your ballot like this:

Shall an act of the General Assembly of 1915, entitled "An Act to Prohibit the Sale of Intoxicating Liquors," become a law May 1, 1916?

YES

NO

Rev. A. R. Crewe Refuses a Call to Lebanon, N. H. Church.

The members of the Congregational church as well as the community at large are glad to hear that Rev. A. R. Crewe refused a call to Lebanon, N. H., in which he was offered \$1500 and parsonage and the ladies' society offered to pay \$50 toward his moving expenses. He feels that his work as pastor here is not yet finished and wishes to repudiate the statement, so often made, that a minister will leave his field for a few hundred dollars.

The community was again shocked at the news of the terrible accident which occurred at the venerable mill Monday, when Will Davis, who was filling a vat with logs in some way slipped and fell into another vat of boiling hot water. He was immediately taken out by fellow workmen, and was still living, but no hopes are entertained for his recovery. He has a wife and three children.

Russell, proprietor of the Red Cross Pharmacy, has a wonderful non-secret preparation composed of the three oldest tonics known, iron for the blood, the medicinal, body-building properties of cod livers, and the nourishing properties of beef peptone, all combined in Vinol, which he guarantees to build up and strengthen weak and feeble old people, and for all run-down conditions.—Adv.

### SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and Neutralize Irritating Acids

Kidney and bladder weakness result from uric acid, says a noted authority. From uric acid, says a noted authority, blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a table spoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent, lithia-water drink, which quickly relieves bladder trouble.—Adv.

She was married in Walden in 1870 to William H. Barr and went at once with her husband to Cabot, where they resided for nearly 40 years. Four children were born, two of whom, Mrs. J. H. Barrington of Greensboro and John S. Barr of Cabot, survive. Mrs. Barr also left three brothers and one sister to mourn her loss, all of whom live in Vermont except Gay White of Santa Barbara, Cal. Her husband died about five years ago, also at the daughter's home in Greensboro.

### EARLY MORNING FATIGUE

When you awake in the morning feeling tired out, feeling worse in fact than when you went to bed, you are confronted with one of the characteristic symptoms of neurasthenia. It is due to the run-down condition of the nerves that rest does not bring renewed strength and sleep refresh the tired brain. Overwork and worry are the most frequent causes of this condition.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price, 50 cents per box; six boxes \$2.
